

Steenbok Nature Reserve

Plan for 2010

- ❑ Nurturing recently planted areas to bring the flora to a self sustainable stage
- ❑ Introducing more information boards covering other topics of interest
- ❑ Introduction of plant specie signs in the Indigenous Garden
- ❑ New natural garden near the Horne Road intersection to be managed by nearby residents
- ❑ Introducing more formality in the allocation of memory benches and trees
- ❑ Implementation of programme to control Imperata cylindrica (cotton grass).
- ❑ Expansion of www.steenboknaturereserve.org.za to include many more species and feature articles relating to the Reserve
- ❑ Introduction of basic environmental courses for children
- ❑ On-going maintenance to ensure continuation of standards set during the past year
- ❑ Launching of 'Friends of Steenbok Nature Reserve'
- ❑ Pursuing discussions with SANParks with a view to participation in the Garden Route National Park
- ❑ Introducing 'spike water' exhibit with explanatory story boards explaining the underground aquifer system
- ❑ Plan to remove alien grasses and other alien vegetation west of tennis courts
- ❑ Encouraging bird life
- ❑ PersuadingALL..... to clean up their dog poo

Completed at 30 November 2009
